

# Time Bank **Community** Participation Agreement

**Last Updated: 15/9/2026**

These Community Guidelines form part of the Terms of Service of **[App Name]** ("Platform"). By creating an account, selecting "I Agree," accepting or posting a task, or otherwise participating in the Time Bank community, you agree to comply with these rules.

Violation of these rules may result in cancellation of a task, loss of Time Credits, temporary suspension, permanent removal from the Platform, and, where appropriate, referral to emergency services or law-enforcement authorities.

## 1. Respect and Equal Treatment

All users must treat one another with dignity and respect.

Users must not engage in:

- threats, intimidation, harassment, bullying or stalking;
- discriminatory or hateful conduct;
- sexual harassment or unwanted sexual behavior;
- deliberately abusive or humiliating communication;
- exploitation of another person's age, disability, financial circumstances or vulnerability.

Older adults must be treated as equal members of the community and must not be pressured into accepting tasks because of their age or available free time.

## 2. Lawful Use Only

The Platform may only be used for lawful community activities.

Users must not use the Platform to request, arrange, facilitate or participate in:

- theft, fraud, deception or financial exploitation;
- violence or threats of violence;
- illegal transactions;
- unauthorized access to another person's property, accounts or personal information;
- transportation, storage or transfer of unlawful items;
- any activity prohibited by applicable law.

A user who reasonably believes that a task involves unlawful conduct must stop participating and report the task through the Platform.

### **3. Accurate Identity and Information**

Users must provide accurate information when registering and must not impersonate another person.

Users may not:

- create an account using another person's identity;
- intentionally provide false verification information;
- allow another person to perform a task using their account;
- misrepresent their qualifications, abilities or experience.

The Platform may require reasonable identity verification for access to particular services.

### **4. Safe and Appropriate Tasks**

Tasks must be appropriate for the person accepting them.

Users must not pressure another user to perform a task that the person believes is unsafe, inappropriate or beyond their physical ability.

The Platform may restrict or remove tasks that create an unreasonable safety risk.

Health information provided through a connected wearable may be used for safety or task recommendations only in accordance with the Platform's Privacy Policy and the user's consent.

A health-based recommendation does not constitute medical advice or a guarantee that a task is safe.

### **5. Financial Protection**

Unless specifically supported by an approved Platform function, users must not ask another user to:

- disclose passwords, PINs or authentication codes;
- provide access to bank accounts or financial accounts;
- transfer money outside the Platform;
- sign financial or legal documents on another person's behalf;
- lend substantial amounts of money;
- purchase unusually expensive items;
- provide credit-card or banking information.

Users should never surrender control of their financial accounts to another community member.

Suspected financial exploitation must be reported immediately.

## **6. Time Credits**

Time Credits represent participation within the Platform's Time Bank system and are subject to the applicable Time Credit Rules.

Users must not:

- falsify task completion;
- artificially create tasks to generate credits;
- trade accounts;
- manipulate recorded working time;
- threaten another user in order to obtain credits.

The Platform may investigate suspicious activity and correct, freeze or remove improperly obtained Time Credits in accordance with its Terms of Service.

## **7. Personal Property**

Users must respect another person's property.

A task participant may use, move or handle another person's property only to the extent reasonably necessary to complete the agreed task.

Taking, retaining, damaging or using another person's property without permission is prohibited.

## **8. Privacy**

Users must not disclose another user's private information without permission.

This includes:

- home address;
- telephone number;
- health information;
- financial information;
- photographs or recordings;
- private messages;
- family information;
- real-time location.

Information obtained while completing a task may only be used for the purpose of completing that task unless the user has separately consented to another use.

## **9. Communication**

Platform communication tools should be used whenever reasonably possible so that users have access to reporting and safety functions.

Users must not pressure others to move conversations to another communication service for the purpose of avoiding Platform safety protections.

## **10. Reporting Dangerous Conduct**

Users should immediately report:

- threats;
- harassment;
- fraud;
- theft;
- suspicious financial requests;
- unsafe tasks;
- missing persons;
- physical harm;
- exploitation of an older or vulnerable adult.

If there is an immediate danger, users should contact the appropriate local emergency service before contacting Platform support.

## **11. Platform Enforcement**

Depending on the seriousness of a violation, the Platform may:

1. issue a warning;
2. remove a task;
3. restrict certain features;
4. temporarily suspend an account;
5. permanently terminate an account;
6. preserve relevant account records as permitted or required by law;
7. cooperate with authorized public authorities where legally required or permitted.

Serious misconduct may result in immediate suspension without a prior warning.

## **12. User Agreement**

By selecting “**I Have Read and Agree**”, the user confirms that:

- the user has had an opportunity to read these rules;
- the user agrees to follow them;
- the user understands that violations may result in loss of access to the Platform; and
- these Community Guidelines form part of the user’s agreement with [App Name].

**[ ] I have read and agree to the Time Bank Community Participation Agreement.**

## **Private Task and One-to-One Interaction Safety Agreement**

**Last Updated: [15/9/2026]**

**This Agreement applies whenever two or more users interact privately through [App Name], including an in-person task, home visit, private voice or video call, direct message, delivery, collection, accompaniment or other one-to-one service.**

**By accepting a private task and selecting “Agree & Start Task,” each participant agrees to the following conditions.**

### **1. The Agreed Task Is the Only Authorized Task**

**Participants may only perform the task described and accepted through the Platform.**

**A participant must not pressure another person to perform additional services that were not included in the original task.**

**Any material change to the task should be confirmed through the Platform before continuing.**

### **2. Right to Leave or Cancel**

**Every participant has the right to refuse, stop or leave a task if they feel unsafe, uncomfortable or unable to continue.**

**No user may:**

- physically prevent another person from leaving;
- threaten another person for cancelling;
- demand payment or Time Credits through intimidation;
- pressure someone to remain in a private location.

Safety takes priority over task completion.

### **3. Home Visits**

Entering another user's home is permitted only when reasonably necessary for the accepted task and when the resident has expressly agreed to the entry.

A visiting user must:

- remain only in areas reasonably related to the task;
- leave when requested;
- avoid opening drawers, cabinets, personal devices or private areas without specific permission;
- not invite an additional person into the property without permission.

The resident may choose to complete a task at the entrance, lobby or another appropriate public or shared location instead.

### **4. No Unauthorized Guests**

Only the user assigned to the task may attend unless all participants have agreed through the Platform that another person may be present.

Users must not secretly substitute another person to complete a task.

### **5. Private Calls and Video Calls**

During private voice or video communications, users must not:

- make threats;
- engage in sexual or harassing conduct;
- pressure another user to reveal private information;
- request passwords, banking information or authentication codes;
- make fraudulent financial requests;
- record a private conversation where doing so would violate applicable law or where required consent has not been obtained.

A user may end a call at any time.

## **6. Purchases and Errands**

Where one user purchases goods for another, the task should clearly state:

- the requested items;
- the expected spending limit;
- the approved payment or reimbursement method; and
- any permitted substitutions.

The assisting user must not make unauthorized purchases.

The requesting user must not pressure another participant to use personal funds beyond an amount the participant has expressly agreed to advance.

Receipts should be uploaded through the Platform where the feature is available.

## **7. Personal and Financial Information**

During a private task, no participant may request another person's:

- banking password;
- payment PIN;
- authentication code;
- account password;
- government-account login credentials;
- other credentials that would permit access to sensitive accounts.

Users should only exchange the minimum personal information reasonably required to complete the task.

## **8. Connected Watch and Safety Mode**

Where supported, an older participant may voluntarily activate Task Safety Mode on the connected watch.

Depending on the user's settings and consent, Task Safety Mode may provide features such as:

- task start and end confirmation;
- duration monitoring;
- fall or unusual inactivity alerts;
- emergency assistance functions;
- check-in notifications;
- limited location sharing during the active task.

Health and location information must be collected, used and shared only in accordance with applicable law, the Platform Privacy Policy and the user's permissions.

Another user may not force an older participant to activate or disable health or location monitoring.

## **9. Check-In Function**

For eligible private tasks, the Platform may ask participants to confirm:

**START TASK**

and later:

**TASK COMPLETED — I AM SAFE**

If a task significantly exceeds its expected duration, the Platform may send a safety check-in.

Failure to respond does not automatically mean that an emergency has occurred.

## **10. Emergency Assistance**

If a participant reasonably believes that someone is in immediate danger, they should contact the appropriate local emergency service.

The Platform's emergency features are supplementary safety tools and are not a replacement for professional emergency services.

## **11. Prohibited Conduct**

The following conduct is strictly prohibited during a private interaction:

- assault or threats;
- theft;
- stalking;
- sexual misconduct;
- fraud or attempted fraud;
- deliberate property damage;
- coercion or extortion;
- financial exploitation;
- impersonation;
- unlawful restraint;
- secretly accessing private accounts, devices or information;

- using the Platform to facilitate criminal activity.

The Platform may immediately suspend an account where there is a reasonable safety concern while the matter is reviewed.

## 12. Incident Reporting and Records

Users may report an incident through Report → Safety Incident.

Where permitted by applicable law, the Platform may preserve relevant records such as:

- task details;
- timestamps;
- messages;
- transaction records;
- safety alerts;
- account information;
- task check-in information.

Such information may be disclosed when required by valid legal process or otherwise permitted by applicable law.

## 13. No Waiver of Legal Rights

Nothing in this Agreement is intended to require a user to waive rights that cannot lawfully be waived or to limit responsibility where applicable law prohibits such a limitation.

Conduct that constitutes a criminal offense remains subject to applicable law regardless of any action taken by the Platform.

## 14. Mandatory Acceptance

Before beginning an eligible private task, each participant must separately confirm:

☐ I understand the task I am accepting.

☐ I agree to follow the Private Task and One-to-One Interaction Safety Agreement.

[AGREE & START TASK]

Acceptance will be electronically recorded together with the applicable version of this Agreement, user account and acceptance timestamp.
